

Shanghai Pacific Millennium Packaging & Paper Industries Co., Ltd

Verification criteria : ISO 14064-1:2006

Venue / boundary : Flat A, 2/F, No.398 TianLin Road, XuHui District, Shanghai, China

Inspection coverage time : January 1, 2020 - December 31, 2020

Total emissions : 46783 tCO₂e

Cover the following activities : All GHG emission activities related to production and business activities of Shanghai Pacific Millennium Packaging & Paper Industries Co., Ltd, located at Flat A, 2/F, No.398 TianLin Road, XuHui District, Shanghai, China, and it includes eleven plants located in Tianjin, Qingdao, Shenyang, Suzhou, Zhejiang, Nanjing, Dalian, Changshu, Guangdong, Taicang and Jiangsu

Greenhouse gas range : Scope 1 and scope 2

Release date of verification statement : March 26, 2021

Validity of verification statement : March 26, 2021 to March 25, 2022

VALIDATION/VERIFICATION
CNAS C041-V

General manager:

Shenzhen CTI International Certification Co., LTD

Zone A 8F CTI Building, No.4 Liu Xian San Road, Xin'an Street, Bao'an District, Shenzhen, China.

Appendix to this greenhouse gas verification statement

Brief description of verification process:	CTI and Shanghai Pacific Millennium Packaging & Paper Industries Co., Ltd sign the contract, Check the greenhouse gas inventory report (January 1, 2020 to December 31, 2020) according to ISO 14064-1
Areas and categories involved:	Pulp production, paper making and printing (13)
Guarantee level:	Reasonable assurance level
Range boundary:	All GHG emission activities related to production and business activities of Shanghai Pacific Millennium Packaging & Paper Industries Co., Ltd, located at Flat A, 2/F, No.398 TianLin Road, XuHui District, Shanghai, China, and it includes eleven plants located in Tianjin, Qingdao, Shenyang, Suzhou, Zhejiang, Nanjing, Dalian, Changshu, Guangdong, Taicang and Jiangsu
Types of greenhouse gases included	CO ₂ , CH ₄ and N ₂ O
Emission Scope 1	<ul style="list-style-type: none"> - Emissions: 18301tCO₂e - Stationary sources of greenhouse gas emissions: Boilers - Mobile sources of greenhouse gas emissions: Forklift, Hold car and Official vehicles - Emission sources of fugitive greenhouse gases: NA - Process GHG emission sources: NA
Emission Scope 2	<ul style="list-style-type: none"> - Emissions: 28482tCO₂e - Purchased power and Purchased steam
Emission Scope 3	<ul style="list-style-type: none"> - Emissions: Not applicable <p>This inventory does not include the identification and quantification of scope 3</p>
Total emissions	- 46783 tCO ₂ e
